interests

S	Spatial Level		Institution		Responsibility
Systen	Z		Secretary of State		Is in charge of all
Government Health Sy			Department of Health		Sets policy for all
	National	North	SHA	National Commissioning Board & Public Health England	Performance manages all Spends about 20% of Local NHS Budget
		Lancashire	PCT Cluster		
	Local		Health and Wellbeing Board		Holds all to account for health improvement/outcome delivery
			Clinical Commissioning Group		Commissions Local NHS services Spends 75% of Local Budget
ca			Clinical Senate		Advises CCG
nd Local			Local Authority Public Health Service		Advises all on prevention & outcome delivery – spends about 5% (current) local NHS Budget
NHS an			Childrens and Health Scrutiny Committee		Scrutinises –especially HWB
		. ,	Health-Watch		Represents community to all
Z	Regional/Lancashire/ Local		Commissioning Support Vehicle		Supports the CCG to commission

BwD: Health and Wellbeing Board 3 Phases

- 2011-12 : 'Early Implementer' Phase
- 2012-13: Shadow Health and Wellbeing Board
- 2013-: Statutory Health and Wellbeing Board

National NHS Reform Vision for HWB Board & Strategy

In the future health and wellbeing boards will be the focal point for decisionmaking about how best to improve health and wellbeing, and decision-making should build on existing knowledge and previous achievements. There are opportunities locally and nationally to build on what has gone before as well as to share best practice as it emerges across the new health and care system. Key to success is the development of new and existing good partnership working arrangements which build on existing local knowledge and delivery, and also seizing the opportunity to stimulate change.

BwD Shadow Health and Wellbeing Board: Vision & Purpose

- To provide a stakeholder governance committee to drive improved health, social care, quality of life and wellbeing outcomes for local citizens.
- It will achieve this through rigorous examination and challenge of all stakeholders, both within the Borough and at national, sub-national and community levels of service provision.
- Its strategic focus will be to increase the integration, equity, effectiveness and efficiency of public, private, voluntary and community resources within Blackburn with Darwen'.

How might the Health and Wellbeing Board need to Governance Health Outcomes: Example Asthma

Asthma Admissions DH Press Release 11/11/11

- North West Strategic Health Authority (SHA): 175 per 100,000 of the population in the 12 months to July 2011.
- This compares to an average (based on all 10 SHAs) of 6,810 admissions, or 130 per 100,000 of the population.
- Blackburn with Darwen Teaching Care Trust had the highest admission rate by population of any Primary Care Trust (PCT) in the country; at 307 admissions per 100,000 (430 admissions in total),
