Welcome to re:refresh

Our new website is here to make it quick and easy to find out what leisure, health and wellbeing activities, events and services are available across the borough.

The website will also keep you up to date with the latest events and news stories on a variety of topics. To make life easier, why not [sign up](#) to our e-newsletter, simply select what areas you're interested in and we'll send you a summary of what's happening each month.

A wide range of activities and events taking place across the borough are listed on the website, whether they are hosted by the Council, partner organisations or independent sports clubs. [Click here](#) for details of what is available in your local area including what is absolutely FREE with your re:refresh card.

Don't forget - If you are a local organisation, club or group and you would like to promote any health and wellbeing activities or events on this site free of charge, please [contact us](#)

re:refresh

The re:refresh initiative is the first of its kind in the country. It is a groundbreaking partnership between the Council and the NHS. It is an innovative plan to improve the health and wellbeing of residents by increasing levels of participation delivered through two key strands - free leisure and engaging/enabling.

Free leisure

re:refresh offers access to a programme of free leisure across the Council's leisure facilities, parks and community venues. Admission is by means of the borough's beeZ leisure card which is available free to anyone over 16 years who lives, is in full time education, is registered with a GP or works in Blackburn with Darwen. The programme of free leisure complements the Council's existing commitment to free junior activities during the holidays. [Click here](#) for details of the re:refresh sessions available in your local leisure centre.

re:refresh free leisure was implemented using a three phased approach: phase one for the over 50's, family weekend activities and weekend junior swimming was launched with special guests Olympic Gold medalist Daley Thompson and Marathon Runner Ron Hill on July 1 2008.

The remaining two phases were launched on September 1 2008 for 16-24 years and April 1 2009 for 25-49 years, making re:refresh available for all adults over 16 years.

Engaging and enabling

re:refresh goes beyond just free leisure and incorporates community engagement models for sustainable change. The engaging and enabling strand uses, strengthens and expands an existing volunteer network including the Healthy Communities Partnership (HCP) and the borough's Health Trainer programme. These evidence based commu projects work across the borough's neighbourhood areas to help increase participation in physical activity and offer personal support and information to help individuals ma healthier lifestyle changes.
