

EPOCH 230

Epoch delivers fresh, unique experiences to your customers and unrivalled opportunities for commercial partners.

In an era where smartphone and tablets are king, Epoch brings the consumer experience to the giant screen, providing a platform that can easily switch between portrait and landscape to suit the content.

Packed with industry leading innovation, Epoch blurs the boundaries between promotional, entertainment, informational and experiential use for the first time, giving you complete control over your screens and editorial content and create amazing experiences for brands, venues and customers alike.

Sound & Vision Meet

In addition to its huge, stunning 230" high brightness LED screen, Epoch features 4 powerful 400 watt stereo speakers as standard.

Stunning Style

A masterful creation of visual elegance and purposeful performance, Epoch delivers a continuous form where hardware and software function in perfect union.

The product of twenty years of proven innovation and market-leading experience, Epoch takes inspiration from high tech consumer products, amplified larger than life for a truly unique experience.
