Please provide the following information below : tree species (and the number used on the sketch plan) and description of works. Where trees are protected by a TPO you must also provide reasons for the work and, where trees are being felled, please give your proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.

Lime tree marked with Hazard tape in Rear garden of St Silas Vicarage, Preston New Road, Blackburn. See location Plan

The Stone wall on the boundary has now fallen down twice within a very short period after reconstruction by a Professional Walling Contractor. A foundation beaming system has been used but the root range of the tree and its movement in high winds causes fracture and finally failure. The cost of on-going replacement of the wall which is not the clients is significant and removal and stump poisoning of the tree is the appropriate strategy. There are many other limes in the garden of the vicarage.

## 8. Trees - Additional Information

A sketch plan clearly showing the position of trees listed in Question 7 must be provided when applying for works to trees covered by a TPO.
