- ICNIRP declaration and clarification statement;
- Notice served on the site owner in accordance with GPDO, paragraph A3 sub-paragraph (1).

The enclosed application identifies the most suitable site option and design that balances the operation need with local planning policies and national planning guidance.

We have not consulted with the community in relation to this application, but if the Council considers this to be required we are happy to do so.

Advanced, high quality communications infrastructure is essential for sustainable economic growth. The development of high speed broadband technology and other communications networks also plays a vital role in enhancing the provision of local community facilities and services. Internexus is committed to developing and maintaining a positive relationship with all Local Planning Authorities and we would be happy to provide any additional information in relation to this application.

We look forward to receiving your acknowledgement of this application and your decision within the prescribed 56 day time limit.
