

Dear Jim Smith,

Please can you look into getting Speed Bumps at the Top and on The Bend of Worsten Avenue, All The residence are in agreement that the Bend has become a danger, there has been several near misses with cars and delivery vans, and with children crossing the road from the play area that is right on the Bend, family pets have also become injured, we would all just like a safe road for everyone on our small housing estate without the worry of a more serious collision happening.

Thank You
