

Health Impact Assessment

Screening Tool

Toolkit produced by: Public Health

Toolkit version: 1.2 HIA version: 1.0

Date HIA completed: 31st January 2017

Health is not merely the absence of disease or infirmity but a state of complete physical, mental, social and spiritual well-being.

(modified by M. Birley (2013) from World Health Organisation's definition – 1948)

Title of policy, programme or project ("activity") to be assessed:

Compulsory Purchase of individual empty properties within Blackburn with Darwen Borough

What is the activity about? What is the context outlined for the activity? (e.g. policy context, history, background)

Tackling empty properties supports the key priorities of the council's corporate plan and the Empty Property Strategy. Empty properties in the borough can have a negative environmental impact on neighbourhoods in addition to being a wasted housing resource. At neighbourhood level, empty properties attract fly-tipping, crime, arson and nuisance. It is a priority to tackle these problems by agreement or enforcement as part of the wider effort to improve neighbourhoods and preventing blight.

Does this activity have the potential to impact on health? Explain

(please consult appropriate Public Health colleague if you are unsure or require further information)

Bringing empty properties back into use through the Empty Property Strategy enables the authority to ensure the removal of category 1 and 2 hazards from properties prior to occupation as defined by the Housing Health and Safety Rating System 2004. This will have a positive impact upon health for the residents by contributing to the improvement of housing conditions in the Borough.

Re-occupation of these empty properties will also deter fly-tipping, reduce crime, arson and nuisance which contribute to the improvement of health and safety in homes and neighbourhoods.

Whilst no negative impacts have been identified for the compulsory purchase of empty properties, we will continue to complete the full HIA screening as the reasons surrounding the need for a Compulsory purchase Order (CPO) may vary between each individual property. As a result of this it would be wise to further explore this activity to ensure that all aspects have been considered.

If no health impacts are identified then the screening does not need to continue, but please ensure that this has been discussed with the appropriate Public Health colleague prior to discontinuation

Does this activity relate to / impact on any of the Health & Wellbeing Strategy objectives?

\boxtimes	Best start for children and young people
	Health & Work
\boxtimes	Safe & healthy homes & neighbourhoods
	Promoting health and supporting people when they are unwell
	Older people's independence and social inclusion

Does the activity concern any of the following determinants?			
Lifestyle	Yes □	No ⊠	
Physical environment	Yes ⊠	No □	
Social / economic environment	Yes ⊠	No □	
Other, please specify			

What are the potential positive impacts?

Bringing this long term empty property back into use enables the authority to ensure the removal of category 1 and 2 hazards from the property prior to re-occupation as defined by the Housing health and Safety Rating System 2004. This will have a positive impact upon health for the residents by contributing to the improvement of housing conditions in the Borough.

Re-occupation of this empty property will also deter fly-tipping, reduce crime, arson and nuisance in the area which will contribute to the improvement of safe and healthy homes in this neighbourhood. Which in turn will offer children and younger people a much better setting to grow up in.

What are the potential negative impacts?

No negative impacts on health have been identified in association with this activity. The activity seeks to ensure that a greater number of houses are used for their purpose.

What are the assumptions/risks embedded in or underpinning the activity?

No assumptions or risks have been identified with this activity.

Are there any external factors which identify the nature and extent of the impacts on health for this type of proposal (e.g. research; policy changes etc.)

Local Government Association, action to tackle empty homes -

http://www.local.gov.uk/c/document_library/get_file?uuid=5416e10f-218a-4994-811f-0e96ce93227c&groupId=10180

House of Commons, Empty Housing Briefing Paper -

http://researchbriefings.parliament.uk/ResearchBriefing/Summary/SN03012#fullreport

Housing Health and Safety rating System -

https://www.gov.uk/government/publications/housing-health-and-safety-rating-system-guidance-for-landlords-and-property-related-professionals

List the groups most likely to be affected by this proposal

This proposal will contribute positively to the overall health and safety off all members of the community and neighbourhood affected.

What are some of the potential equity issues?

The re-occupation of these empty, and potentially problematic properties, will contribute to the reduction of nuisance, crime, arson and fly-tipping resulting in an overall improvement to the social and physical environment of the neighbourhood. This will be to the benefit of all residents regardless of any individual characteristics.

Answers		Answers			
favouring doing	To your knowledge	favouring not			
an HIA		doing a HIA			
Health impacts					
☐ Yes ☐ Not sure	Does the initiative affect health directly?	⊠ No			
	Does the initiative affect health indirectly?	□ No			
☐ Yes ☐ Not sure	Are there any potential serious negative health impacts that you currently know of?	⊠ No			
☐ Yes ☐ Not sure	Is further investigation necessary because more information is required on the potential health impacts?	⊠ No			
□ No	Are the potential health impacts well known and is it straightforward to identify effective ways in which beneficial effects can be maximised and harmful effects minimised?	⊠ Yes			
	Community				
☐ Yes ☐ Not sure	Is a large proportion of the population likely to be affected by the initiative (over 25% of the resident population)?	⊠ No			
☐ Yes ☐ Not sure	Are there any socially excluded, vulnerable, disadvantaged groups likely to be affected?	⊠ No			
☐ Yes ☐ Not sure	Are there any community concerns about any potential health impacts?	⊠ No			
	Initiative				
☐ Yes ☐ Maybe	Is there some reason to suspect that health issues not considered in the planning process of this initiative might become more visible by doing an HIA?	⊠ No			
☐ Yes ☐ Maybe	Is the cost of the initiative high (over £100,000)?	⊠ No			
☐ Yes ☐ Maybe	Is the nature and extent of the disruption to the affected population likely to be major?	⊠ No			
	Organisation				
⊠ Yes	Is the initiative a high priority/important for the organisation/partnership?	□ No			
☐ Yes ☐ Maybe	Are the individuals and organisations with a stake in this initiative likely to buy into the HIA process?	⊠ No			
⊠ Yes □ Maybe	Is there potential to change the proposal? Will there be any other similar proposals in the future?	□ No

Choosing which HIA to do

Health Impact Statement	Type of HIA	Comprehensive
	Is there only limited time in which to conduct the HIA?	□ No
	Is there only limited opportunity to influence the decision?	□ No
⊠ Yes	Is the timeframe for the decision-making process set by external factors beyond your control?	□ No
⊠ Yes	Are there only very limited resources available to conduct the HIA?	□ No

Deciding who should do the HIA

External	Assessors	Internal
□ No	Do personnel in the organisation or partnership have the necessary skills and expertise to conduct the HIA?	⊠ Yes
⊠ No	Do personnel in the organisation or partnership have the time to conduct the HIA?	☐ Yes

Is an HIA appropriate?	☐ Yes			
Why or why not?				
No negative impacts to health have been identified. All impacts on health will be positive ones including the removal of category 1 and 2 hazards from houses and the reduction of fly-tipping, crime, arson and nuisance to neighbourhoods.				
If yes, what type and how?				
N/A				
Recommendations / comments				
none
