

HEALTH AND WELLBEING BOARD

TO:	Health and Wellbeing Board
FROM:	Healthier Pennine Lancashire Integrated Care Partnership, ICP, and Healthier Lancashire Integrated care System, ICS,
DATE:	17/02/2020

SUBJECT: Integrated Care System Strategy and Population Health Plan Priorities

1. PURPOSE

The draft Integrated Care System (ICS) Strategy (Appendix A) has recently been discussed by the Integrated Care System Board. The draft strategy identifies the Population Health Plan priorities:

- Best start in life
- Healthy Behaviours
- Zero Suicides
- Neighbourhood Development
- Work and Health

These are aimed at improving the health and wellbeing outcomes of our communities. A system wide approach to develop the Implementation Plan is under way, managed through the Population Health Steering Group of the Integrated Care System.

2. RECOMMENDATIONS FOR THE HEALTH & WELLBEING BOARD

The Health and Wellbeing Board is requested to:

- Receive, discuss and endorse the draft Integrated Care System Strategy.
- Confirm commitment to the Population Health Plan priorities identified in the draft Strategy.
- Engage with and support the development of the Integrated Care System Population Health Implementation Plan.
- Endorse the alignment of the existing population health and prevention activity across the Integrated Care System work streams and Integrated Care Partnership/Multi-speciality Community Provider plans (in West Lancashire).

3. BACKGROUND

Background

1. Draft Strategy and Population Health Priorities

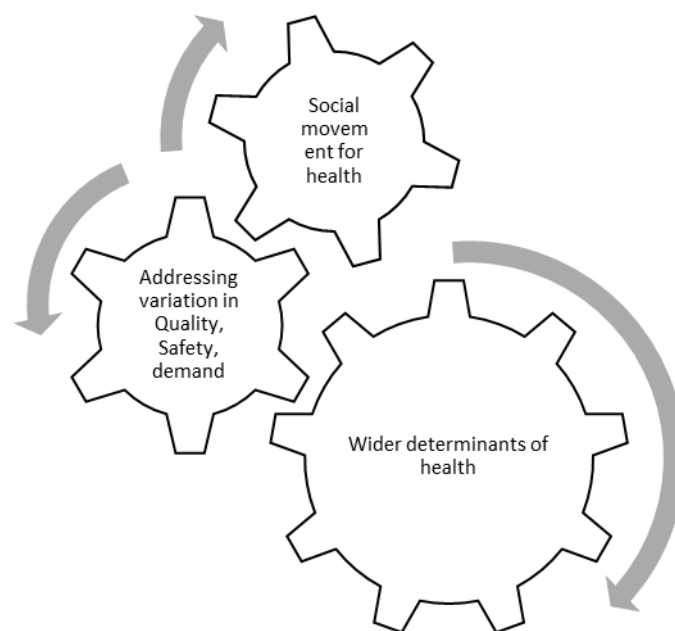

1.1 The draft Integrated Care System (ICS) Strategy (Appendix A) has recently been discussed by the Integrated Care System Board. The vision identifies the following ambitions:

- Healthy communities

- High quality and efficient services
- Health and care service that works for everyone, including our staff

The strategy also identifies the Population Health Plan priorities, which are aimed at improving the health and wellbeing outcomes of our communities. Our overarching Population Health ambition is to achieve best health for all, with a focus on reducing health inequalities. The ambitions and objectives are informed by the latest national and local data and evidence based practice of what good looks like. The strength is our focus in places and neighbourhoods. We are building on a range of successful collaborations we already have across our system. The Strategy is well aligned to Blackburn with Darwen Health and Wellbeing Board priorities and Pennine Lancashire Integrated Care Partnership Strategic narrative.

- 1.2 The Lancashire and South Cumbria Integrated Care System Board signed off our population health framework that includes our organising principles, strategic objectives and theory of change for improving health and care at scale in February 2018. These are aligned to the priorities identified by the four Health and Wellbeing Boards.
- 1.3 Our organising principle is to embed prevention in everything we do and provide place based, person centred care, by working with our residents.
- 1.4 Our theory of change for improving health and care outcomes at scale is illustrated below.

- 1.5 Our framework for population health is based on The Kings Fund Population Health Framework as well as Public Health England's (PHE) toolkit for place-based approaches to reduce health inequalities. This includes action to improve the wider determinants of health, healthy behaviours and lifestyles, the places and neighbourhoods we live in, and delivering person centred care.

The King's Fund. A vision for population health: Towards a healthier future. 2018. Available from: <https://www.kingsfund.org.uk/publications/vision-population-health>.

The Population Health approach will be embedded across every level of our system level as follows:

- Integrated Care System – whole system setting of quality, standards and population level health and wellbeing campaigns.
- Integrated Care Partnerships/Multi-speciality Community Provider – develop integrated population level prevention programmes tackling key health and care inequalities.
- Primary Care Networks – extend the Population Health Management accelerator to improve health outcomes and maximise the neighbourhood and community assets for local communities.

4. RATIONALE

The NHS Long Term Plan (LTP) was published in January 2019 and set out a range of ambitions for the NHS for the next 5 – 10 years. All 'Local health systems' were asked to produce local plans for implementing the commitments set out within the LTP. For South Cumbria, this means Lancashire and South Cumbria Integrated Care System.

Alongside this, and following an extensive period of engagement, the Healthier Pennine Lancashire Integrated Care Partnership (ICP) has agreed a forward plan.

The Lancashire & South Cumbria Integrated Care System (ICS) was required nationally to submit an ICS Strategic Plan by the 15th November, in response to the NHS Long Term Plan (LTP) and the local needs of our population over the next five years. The Plan has now been produced and a copy is attached – again the status of this is draft. Again, HWBB is asked to note development and consider the document.

5. KEY ISSUES

None.

6. POLICY IMPLICATIONS

None.

7. FINANCIAL IMPLICATIONS

None.

8. LEGAL IMPLICATIONS

None.

9. RESOURCE IMPLICATIONS

None.

10. EQUALITY AND HEALTH IMPLICATIONS

None.

11. CONSULTATIONS

None. Extensive engagement was undertaken over the last three years to develop the ICP Plan.
